Parker Pump Case Drain Test For CPM machines

Description:

Instructions on; “How to test the Case Drain on a Parker Pumping Unit used with the CPM machines.

WARNING

Never work on, clean or service this unit, control panel or any machine or open or remove any protective cover, guard, grate, door, or maintenance panel until the power or energy sources has been turned off, locked out / tagged out, and all moving parts have come to a complete stop and or blocked to prevent movement. Machinery is dangerous - avoid personal injury and or death by following manufacture, Local, and OSHA safety procedures. Contact Columbia Machine for safety decals, guards, horns and beacons.

Remove case drain hose from fitting at pump. Install a tee fitting and reinstall hose. Install a gauge (**NO LARGER THAN 100 PSI**) on the open leg of the tee fitting. Start the pump and observe the pressure.
