

DTAM to PanelView Conversion

The 1747-DTAM is no longer available from Allen Bradley for the Columbia-Paco Splitter interface

Solution, Columbia Machine, Inc. continues to support and improve the Paco line of equipment, new and old. One of the ways is in our conversion kits. One of our popular kits is the PanelView operator interface for the splitter. This PanelView takes the place of the Allen Bradley 1747-DTAM.

Understanding the manufacturing environment, personnel and equipment, our replacement kits are designed to replace old hardware and improve production as well as downtime. Included in the kit is an Allen Bradley PanelView model 600 color terminal, cable to connect to PLC, flash card, new set of electrical prints and an updated PLC program.

BENEFITS:

- Improves Set-up Time:**
 When changing product sizes utilizing the high performance color screen with keypad.
- Reduces Downtime:**
 With the use of a user-friendly diagnostics screens with graphic displays.
- Improves Production and Splits:**
 Using a control ACP bar speed from the screen and adjust splits and turn positions on the fly.
- Additional Screens and Features:**
 Excellent operator interface with full color screens and features such as turnover and deduct block counts.
